

To Whom It May Concern:

Ian Van Temperley and I worked on the feature film *Cloud Atlas* for almost a year between 2012 and 2013.

In my view, Ian's most notable strengths are his strong communication skills, his attention to detail within his department, determination and vast knowledge of Stunts, Fight sequences and general Stunt skillsets. On top of that Ian always proved to be a very hard worker. He demonstrated all these qualities throughout the film impressing the Directors and Production as well as the crew and those within his department. Since then I have continued to receive stellar reports on Ian.

I have always known Ian as a person willing to go the extra mile, whether it be in his resolve to sort out and render less complicated Stunt sequences, fight sequences or action on set or his eagerness to take on diverse roles within each task given to him. Ian has always been able to adapt to a wide array of functional responsibilities and work environments. I believe this is a valuable quality that will help him along the line in the Film Industry. I recommend Ian to any Film Production should they have the opportunity to hire him.
